HEADED FOR THE MOVIES?

The **Bali Film Centre** (BFC) will be in Los Angeles for the Film Locations Trade Show, hosted by Walt Disney Studios, 3-5 June 2011, to introduce Indonesian locations at the world's largest film location event. Supported by Indonesia's Ministry of Culture and Tourism, BFC identifies and pursues potential movie and television projects for the country. The benefits of film tourism became evident after the 2009 release of *Eat, Pray, Love* as tourism numbers increased substantially. Indonesia's vast tapestry of culture, topography, and location make the country a compelling pick for films.
